Tables with toned cells

Risk	Impact	Status
Data loss	High	Done
Slow export	Medium	Late
Font missing	Low	Done

Math (LaTeX)

Inline $e^{i\pi} + 1 = 0$, and as a display:

$$\int_0^1 x^2 dx = \frac{1}{3} \qquad \sum_{k=1}^n k = \frac{n(n+1)}{2}$$

Code

```
1 export function total(lines: Line[]): number {  
2   return lines.reduce((s, l) => s + l.price * l.qty, 0);  
3 }
```
